FIRE PREVENTION AND LIFE SAFETY REPORT

When it is time for spring-cleaning, remember a clean house is a safer house. The Fire Prevention Bureau suggests that you take a few moments to check some areas in your house for hazards that could cause a fire.

LIVING OR FAMILY ROOM

- Eliminate overloaded electrical outlets.
- Minimize the number and length of extension cords.
- Allow space around the TV and stereo equipment to prevent overheating.
- Use a metal screen in front of the fireplace.
- Have large, deep ashtrays for smokers and make sure all smoking materials have been extinguished before disposal.

KITCHEN

- Keep surfaces clean and free of grease.
- Do not leave the kitchen while the stove or oven is in use. Many fires begin during unattended cooking.
- Turn pot handles in so they cannot be knocked off or pulled down by small children.
- If you have a grease fire, put a lid on it! Using water will spread the fire.

BEDROOMS

- Make a firm rule not to allow anyone to smoke in bed.
- Working smoke detectors should be installed outside each sleeping area. Test the detectors monthly and change the batteries twice a year.
- Have a home fire escape plan and practice it with your family.

BASEMENTS, GARAGE AND STORAGE AREAS

- Have the furnace, wood or coal burning stoves or any other heating appliance inspected by a professional prior to each heating season.
- Keep areas around heating equipment free of papers, rags or flammable liquids.
- Store gasoline or other flammable liquids in safety cans outside your home.

THROUGHOUT THE HOUSE

- Keep matches and lighters stored where children cannot find them.
- Post Emergency numbers on all phones.
- Do not let papers or trash accumulate.
- Unplug appliances when not in use.

It only takes a few minutes to check your home for fire hazards. You could be preventing a fire and possibly saving a life . . . the life of your family.

IN CASE OF FIRE - BE PREPARED

Recognizing the possibility that fire may strike your home, decide now how you would be able to save your family's lives were you to awake and smell smoke tonight!

Plan two possible routes to the ground from any upstairs bedroom. It is unlikely that flames would cut off both escape routes during the early stage of fire. We recommend that every home with children conduct regular home fire drills, showing the children where to go and what to do if the normal escape route is blocked by fire.

If Fire Starts:

1. Arouse everyone in the house. Make it your first duty to get everyone out of the house.
2. Call the Fire Department at once.
 - (a) Have number posted near phone. 9-1-1
 - (b) Know location of nearest Fire Alarm Box.

If Trapped on 2nd or Upper Floors:

3. Jump only as a last resort.
4. Close door leading to hall.
5. Keep low, on hands and knees crawl to window.
6. Open window, top and bottom, place head out window and wait for help.
7. Use porch roof if possible.

ESCAPE RULES

1. Keep close to the floor.
2. Take short breaths and cover face with wet cloth.
3. Keep out of excessive heat and smoke. Feel doors, if hot don't open.
4. Have outside gathering point. Is everyone out?
5. Never re-enter the burning building.

'May They Not Be Forgotten'

Brother when you weep for me,
Remember that it was meant to
be.

Lay me down and when you
leave,
Remember I'll be at your sleeve.

In every dark and choking hall.
I'll be there as you slowly crawl.
On every roof in driving snow,
I'll hold your coat and you will
know.

In cellars hot with searing heat,
At windows where a gate you
meet,
In closets where young children
hide,
You know I'll be there at your
side.

The house from which I now
respond,
Is overstaffed with heroes gone.

Men who answered one last bell
Did the job and did it well.

As firefighters, we understand
That death's a card dealt in our
hand-
A card we hope we never play.
But one we hold there anyway.

That card is something we
ignore,
As we crawl across a weakened
floor.
For we know that we're the only
prayer
For anyone that might be there.

So remember, as you wipe your
tears,
The joy I knew throughout the
years.
As I did the job I loved to do,
I pray that thought will see you
through.

The Fireman's Prayer

When I am called to duty, God, wherever flames may rage, give me strength to save some life, whatever be its age. Help me embrace a little child before it is too late, or save an elder person from the horror of that fate. Enable me to be alert to hear the weakest shout, and quickly and efficiently to put the fire out.

I want to fill my calling and give the best in me, to guard my every neighbor and protect his property, and if, according to your will, I have to lose my life, please bless, with your protecting hand, my children and my wife.

-Amen

Report of the Office of the Fire Chief

During the year 2011, the Department responded to 342 calls, with an additional 27 responses made specifically for medical related assistance in accordance with the department's cooperative service agreement with the Town's contract rescue service.

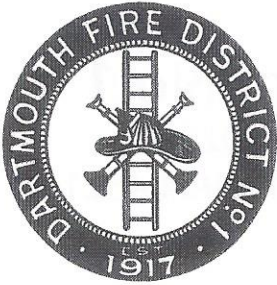

In accordance with Department requirements, two recruit firefighters successfully completed the Massachusetts Firefighting Academy Call/Volunteer training program, bringing the current Department roster to a total of 39 members. This includes 24 members having certifications at the level of Basic Massachusetts Emergency Medical Technician or higher.

In-house training was conducted throughout the year under the supervision of the Department officers, with several members also completing advanced training courses offered through the Massachusetts Firefighting Academy. Residential and commercial inspections, including courtesy walk-throughs free of charge were regularly performed by the Department's Fire Prevention Division and educational programs for students attending both the Cushman and DeMello Elementary Schools conducted by the Department's Student Awareness of Fire Safety members as a community service.

Throughout the year, various repairs and improvements were performed on the station, including waterproofing and installation of a subsurface drain system in the basement, reshingling of the garage roof, and the installation of vinyl covering to eliminate repainting and minimize future building maintenance costs.

In late August, in accordance with Department protocol for major weather events, the station was manned with all available personnel, including the placement of apparatus and manpower on the west side of the bridge in anticipation of Hurricane Irene. While the Department responded to approximately fifty storm related calls for assistance during this period, no major incidents occurred, and overall impacts were less than anticipated, with generally minimal impacts experienced throughout the District.

In September, The Department's newest piece of apparatus, a 2011 Pierce custom Rescue Pumper was placed into service, replacing both a reserve 1978 pumper and a 1988 box-style rescue van. It is anticipated that the versatility provided by this vehicle will service both the fire and rescue related needs of the District for many years.

Also in September, Deputy Chief John Judson was appointed to serve as temporary Head of Department through the completion of Chief John Alcainho's employment contract with the Department in 2012. At this time I would like to personally thank all the officers and firefighters who have worked in assisting me in continuing our efforts to serve the various needs of the District throughout this transitional period.
